

About Us

Full Tilt Data is a data services provider for government clients and private sector. The company utilizes over 15 years of healthcare domain experience combined with extensive technical skills to provide data solutions with a primary focus of data interoperability. We provide customers the ability to exchange and use data across different systems/organizations while enforcing strong data governance principles to ensure data meaning and integrity.

Industry Experience

- Team leads a large-scale Centers for Medicare & Medicaid Services (CMS) **modernization** under the Quality Measures Implementation and Reporting (QMIR II) contract, enhancing healthcare reporting and **quality measures** through improved data, innovative technology, and a focus on better patient outcomes and value-based care.
- Team has led large **data warehouse design/development** efforts across multiple contracts within **CMS**.
- Extensive leadership experience in Chronic Conditions Warehouse (CCW), Quality Improvement and Evaluation System (QIES), Advanced Provider Screening (APS).
- Team has led large scale **cloud migration/re-platforming** efforts across multiple contracts with CMS.
- Efforts involve migrating CCW from Oracle to **Databricks** and QIES from Oracle into the AWS Cloud.
- Team designed and implemented a comprehensive **Insurtech** data platform featuring multi-source migration, **automated financial/BDX reporting**, and secure **real-time data** access for external partners.

NAICS Codes
